

REV'14

Exhibition Session

<http://www.rev-conference.org/REV2014/>

The Exhibition Session at REV'14 Conference aims at creating an active Forum where participants are encouraged to interactively demonstrate developed tools, systems and products in the field of remote and virtual laboratories and other supporting technologies.

Academics as well as industrial partners are welcome.

Demo proposals should be submitted via REV'14 submission system as two-pages extended abstract using the IEEE Paper template. The abstract should clearly describe the proposed demonstration and its relevance for the audience of REV'14 Conference.

The presenters will be expected to use their personal Laptop during the exhibition session. A desk and network connection will be available.

Important dates:

October 31, 2013 - Two pages extended abstract Deadline Submission for the Exhibition Session

November 19, 2013 - Notification of acceptance

December 18, 2013 - Deadline for Author registration

January 19, 2014 - Revised extended abstract deadline

February 26-28, 2014 - Conference

Topics of Interest for exhibition proposals include:

- Remote & Virtual Instrumentation
- Online Experimentation and supporting technologies
- Human-Machine Interaction in the Training Process
- Augmented and Virtual Reality
- Serious Games
- Educational and Industrial Applications

Demos extended abstracts will be included in the proceedings (IEEE Xplore) and authors will be also invited to publish reworked works in an iJOE (SCOPUS, EI, ...) Special Issue.
