

## STE Sponsor Benefits Information

The integration of education, research, and production is a goal of paramount importance at every stage of societal development. In this spirit, we strive to contribute by organizing a highly prestigious international conference:

### **24<sup>th</sup> International Conference on “Smart Technologies & Education” (STE) Co-Creating the Smart Industrial Future Through Education 24 - 26 February 2027, Bangkok, Thailand**

The conference, established in 2004 under the name *Remote Engineering and Virtual Instrumentation (REV)* and renamed in 2024 as noted above, is supported in rotation by academic and industrial communities in the countries where it has taken place (USA, England, Germany, Spain, Austria, Estonia, Greece, Italy, Portugal, India, Thailand, Singapore, Hong Kong, etc.). It is a great honor for Burapha University, Thailand to host this conference in 2027 for the first time. This upcoming edition will also have a festive character, marking the 20th anniversary of the *International Association of Online Engineering (IAOE)*—the organization behind several annual conferences, including STE, ICL, and IMCL, with STE serving as its flagship event.

In light of the above, we kindly invite you to consider supporting this important event, which emphasizes collaboration between **university** and **industry** and highlights the training of a new generation of engineers, equipped to meet the demands of the emerging industrial revolution—**Industry 4.0**.

#### **Sponsorship levels:**

Sponsorship benefits are offered in three levels, corresponding to:

- Platinum Sponsors - 150,000 THB (4,000 €)
- Diamond Sponsors - 100,000 THB (2,500 €)
